

Elgin Community Clinic extends hours

To serve patients with the best care possible, Jacobson Memorial Hospital Care Center has extended hours at the Elgin Community Clinic.

Providers at the Elgin Community Clinic will now see patients with appointments starting at 8:15 a.m. through 4:45 p.m. MT. The Glen Ullin Family Medical Clinic sees patients from 8 a.m. to 4:30 p.m. CT.

Both clinics continue to welcome walk-in patients, although patients may not be able to see the provider of their choice as a walk-in patient. Walk-in patients may also have to wait for the next available opening. Providers will only be able to discuss the urgent medical need of a walk-in patient.

Patients are asked to arrive at the clinics at least 10 minutes before their appointment time.

Also remember to:

- Bring your current medications.
- Bring your current insurance or co-pay cards.

For appointments, call the Elgin Community Clinic at 584-3338 or the Glen Ullin Family Medical Clinic at 348-9175.
